This event is to honor the memory of Pat Durkin. Pat was devoted to creating a resource center for our senior citizens and was responsible for the inception of the SRC. Her vision and passion was to make life better for others.

Your participation and generous Sponsorship in this event will help us to keep Pat's vision alive in two special ways. First, is to support the SRC in providing valuable resources to our senior population. Second, is to support the American Lung Association in their continued research for the cure.

The Senior Resource Center advocates for seniors and their caregivers by providing a compassionate supportive environment and a range of educational and training opportunities on issues confronting the aging population.

***We will not breathe easy until:***

- The air over every American city is clean and pure.
- Our public spaces, workplaces and homes are free of secondhand smoke.
- Americans are free from tobacco addiction and its debilitating effects.
- Children's asthma is rare, and airborne toxins are rarer still.
- These successes render lung disease a thing of the past.

***Until then, we are fighting for air.***
